# Passionate about glazing...

Aspect Windows specialise in supplying and installing high quality aluminium glazing solutions, including sliding doors, bi-fold doors, windows, entrance doors and roofing solutions. All made-to-measure, ensuring the perfect fit.

## Design and innovation

For more than 40 years, we have worked closely with architects, developers and homeowners to help create dream homes across Devon and Cornwall.

We know that nothing short of perfection will do. That's why we take a consultative approach, helping you choose the right windows and doors for your project.

Choose from our extensive range of glazing solutions, tailored to your design, budget and specification requirements.

Whether you're embarking on a self-build, undertaking a renovation, or simply replacing existing windows and doors, Aspect Windows will help you find the perfect solution.

As a local family business, we pride ourselves on delivering outstanding service, whatever the size of your project.

Our attention to detail, years of experience and high-quality products enable us to create your perfect space.

With unrivalled after-sales care and an insurance-backed warranty, we provide peace of mind with every installation.

Aspect Windows offer the full supply and installation package;

✓ **Our Exeter showroom** – a relaxed environment, spanning over 1,500 sq ft, showcasing more than 100 product samples, including sliding doors, front doors, bi-folds, windows and roofing solutions.

✓ **Expert guidance at every step** – our friendly consultants are on hand to guide you through our products, explain your options, and answer any questions, helping you choose the right windows and doors for your project with no pressure selling.

✓ **Precise site surveys** – accurate measurement of your apertures ensures a perfect fit for your windows and doors.

✓ **Detailed CAD drawings** – we provide comprehensive drawings confirming sizes, colours, glazing, openings, and hardware, ensuring everything meets your exact requirements.

✓ **Professional installation** – carried out by a team of highly skilled craftsmen and fully FENSA registered.

✓ **Comprehensive warranty** – frame cover for up to 20 years (length varies depending on product and installation location).

✓ **Dedicated after-sales care** – our team is committed to ensuring you are completely satisfied with your installation.

Our approach is honest and informative. Your satisfaction and our reputation is our highest priority

# Innovative door systems...

## Sliding Doors

Sliding doors are the perfect solution for a room with a view, offering minimal interruption whether open or closed. We offer a vast range of aluminium sliding doors to suit all sizes, materials, aesthetics and budgets.

Our Reynaers sliding doors offer high-quality anodised finishes for exceptional coastal performance. Both the Reynaers CP 130 LS and the MasterPatio deliver long-term protection and performance in seaside locations.

If you're looking for the slimmest sightlines, the Ultraline Slim Sliding Door is a unique, industry-leading option that delivers a virtually uninterrupted view, with sightlines of just 20mm.

Explore our alternative sliding door options, including the Cortizo 4600 Plus, the Aluna Slider and the Origin OS-29+. Ask for our technical specification guide sheets to compare all the options available.

For a composite option, our high-performance Internorm sliding doors, including the HS 330 and KS 430, are available in multiple configurations.

Discover more possibilities with corner sliding doors, designed to open up two adjoining walls, or pocket doors, which, when open, slide seamlessly into the cavity to create a large, open space.

## Bi-folding Doors

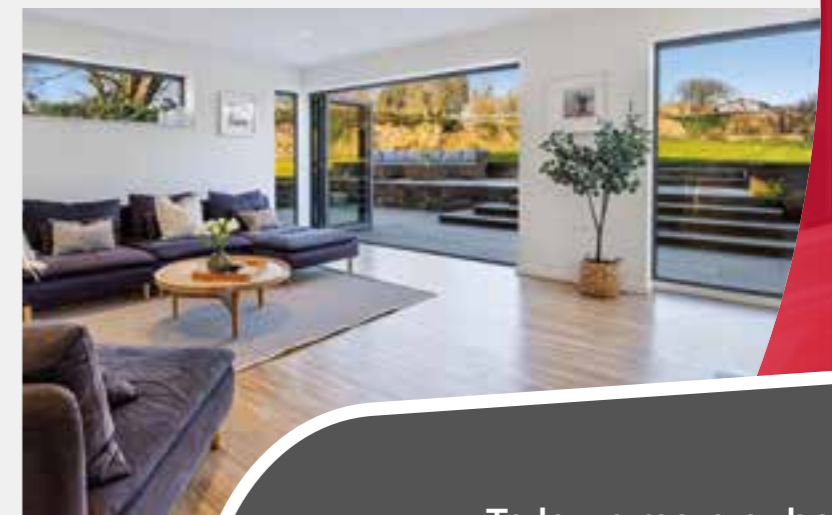

Seamlessly blend indoor and outdoor living with our range of aluminium bi-folding doors.

An ideal solution for creating more usable outdoor space or maximising natural light, they make a striking addition to any project.

We supply and install a range of systems, including Origin's exceptional bi-fold doors. The OB36+ system boasts a slim combined sash sightline of 82mm and is available in Origin's desirable Soho Collection – a stylish steel alternative look. For a more contemporary look, consider the OB49 system for larger, expansive glass panels.

Alternatively, the Cortizo Bi-Fold Plus is another excellent option, combining stylish design with exceptional thermal and acoustic performance.

Choose from double or triple glazing, with Secured by Design accreditation, smooth operation, high-security locking systems, and outstanding thermal efficiency as standard.

# High quality glazing systems...

## Entrance Doors

From modern flush entrance doors to traditional styles, we have a front door for every project. Our Kobbe flush doors are guaranteed to leave a lasting impression.

Each Kobbe door is crafted using advanced manufacturing processes and cutting-edge technology to achieve a high-quality, luxurious finish.

Kobbe's flush panel doors can be tailored to suit your project. Choose from five collections, including glass, quartz and wood finishes, as well as an extensive array of designs, glazing options and hardware to create a completely bespoke look.

Available with triple or quadruple glazing, the Kobbe entrance door range combines modern design with high performance, achieving impressive U-values as low as 0.79 W/m<sup>2</sup>K.

Our state-of-the-art, thermally efficient composite doors offer alternative designs for projects seeking a more traditional, classical finish.

Many of our entrance doors are available with Secured by Design accreditation, engineered to surpass even the most stringent security standards, delivering complete peace of mind.

## Windows

Windows come in many shapes and styles, but at Aspect Windows, we only install the best, from the best.

We supply and install aluminium windows from Reynaers, AluK, Cortizo, Aluco and Origin, selected for their quality, durability and strength. From flush casements to Georgian or steel alternatives, our extensive range offers an option to suit every aesthetic.

For a high-performance, low-maintenance glazing solution, consider composite windows from Internorm, Rationel or Velfac. The preferred choice for homeowners aiming to achieve Passivhaus standards.

For those seeking high-quality timber alternative casement or sash windows, we supply systems from the Residence Collection and Masterframe, respectively. These products deliver exceptional performance while retaining the proportion and elegance of traditional timber windows.

We also offer PVCu windows, a popular, practical and versatile option designed to stand the test of time.

## Curtain Walling, Gable Frames, Rooflights, Balustrading and Verandas

Create a stunning façade with a glass curtain wall. Sit back, relax, and enjoy sunny skies or star-lit nights from the comfort of your home with a rooflight.

Extend your living space onto the patio and enjoy long summer evenings with our veranda and glass balustrade options.

Our innovative range of curtain walling, gable frames, rooflights and verandas can be tailored to your requirements and manufactured to the highest standards.
